
The Big Day

jacksprat
PHOTOGRAPHY

It's quite simple: there is only ONE first moment. You only have one chance to capture that first breath, first cry, first kiss, first snuggle, and the look on your face when you see your baby for the first time, touch your baby for the first time, become a new family for the first time. The birth of your child is an amazing, powerful experience that should be artfully documented so you can remember and treasure that day forever.

I will photograph your birth wherever you choose to have your baby: at your home or in a birth center or hospital. As a certified doula (childbirth coach), I will respect your birth environment and your privacy. I never use flash and will gently ask permission when taking any photos that contain nudity. I will also give you and your birth team plenty of time alone during labor and after baby is born.

I will be on-call, 24 hours a day, during the time around your due date. Don't be afraid to call in the middle of the night!

In the event you need a cesarean, I may not be allowed in the operating room (unless you have also hired me as your doula). I bring a spare camera with me that I will give to dad to use during the delivery so those special moments aren't missed.

My birth photography (The Big Day) package includes:

- A 3rd trimester consultation to get to know one another and discuss your preferences for your birth photographs
- My photography services during your labor and birth
- A private online gallery of your images (50-100 total)
- A CD of all your images, containing both high-resolution and watermarked low-resolution versions
- A custom slide show of selected images from your birth
- A 4x6 or 5x5 hardcover brag book containing your choice of 25 images
- Cost: \$300 (this is a portfolio-building price, and will increase in 2011)
